

KD Golf Scramble Committee Announces *Tree of Hope*

Hope. A simple word yet an eternal aspiration. Where there is hope, there is purpose. In 2011 a small team of people launched the KD Golf Scramble. The event’s purpose was to raise money to fund research and awareness in the pursuit of a cure for Kennedy’s Disease. As we continue to bond together in our 7th year to fight this terrible disease, we are inspired to an even greater purpose...a higher ambition. We embrace the responsibility to provide “hope” for those with KD. It is exactly these efforts we, and others, make that gives hope to those with this genetic, incurable disease.

We are the small light in the horizon, the reason to believe. In this spirit, the KD Golf Scramble committee announces for 2017 the *Tree of Hope*, and invites you to be a sponsor. The tree will be donated by William Noack, owner of Noack Maintenance and Landscape, who is battling Kennedy’s Disease. The *Tree of Hope* will be planted at High Meadows Ranch Golf Club, site of our 2017 Tournament. The name of each person who sponsors the *Tree of Hope* for \$25 will be prominently displayed on a plaque that will be mounted at the base of the tree (example below). For those who prefer, “In Memory” sponsorships displaying the name of a friend or loved one are also available for \$25. Sponsorships are unlimited and sponsors from different members of the same family are welcomed. Please join us in this opportunity to give hope to those fighting KD and sponsor the *Tree of Hope* today!

Below is an example of the *Tree of Hope* and plaque

Please note that the photos below are examples only. The actual tree and plaque may differ.

In addition, the actual plaque will have an inscription relating to the Kennedy’s Disease Golf Scramble Tree of Hope rather than the quote shown in the example below.
